

MaxiShift-X Standing Desk Unit

The Maxishift is a larger height adjustable standing desk unit to accommodate dual monitor setups and larger workspace requirements. A larger footprint and two tier design with separate keyboard/mouse shelf to ensure you have plenty of room for all your office accessories, the MaxiShift converts your existing desktop into a sit stand desk.

Ergonomically lifts up and away from you, as opposed to up and towards for maximum safety

Built in cable management and ships fully assembled

Larger range of height adjustment (160-575 mm)

Gas strut adjustment, not spring based

Stops anywhere for maximum benefits, unlimited stopping points

No pinch points

Steel leg construction

Full size keyboard tray

Ability to offset keyboard tray forward/back

Compatible with most monitor arms on the market

Designed in Australia

Cost effective arm upgrade option

Available in black, Elevar standing desk units will give you increased productivity, energy levels and overall mental and physical fitness, all within an affordable budget.

Work Better. Live Better. Be Active.
