

QuickShift Standing Desk Unit

The Elevar QuickShift is a height adjustable standing desk unit that instantly changes your existing desk top into a sit stand workstation. Providing an affordable sit to stand solution to suit any office and desktop, it's small footprint gives you the benefits of sitting and standing at your existing desk without the inconvenience a new desk.

Ergonomically lifts up and away from you, as opposed to up and towards for maximum safety

Only standing desk unit approved by universities in QLD

Larger range of height adjustment (420 mm)

Gas strut adjustment, not spring based

Stops anywhere for maximum benefits, unlimited stopping points

Minimal pinch points

Steel leg construction

Full size keyboard tray

Ability to offset keyboard tray

Small base section (500mm x 500mm) increases desk space

Designed in Australia

Cost effective arm upgrade option

Available in black, Elevar standing desk units will give you increased productivity, energy levels and overall mental and physical fitness, all within an affordable budget.
