

MAXISHIFT-X

The MaxiShift-X is a versatile height adjustable sit to stand module that can be placed on your existing desk. Screens can be placed at the perfect distance thanks to the generous platform and adjustable keyboard tray.

Any monitor arm from the Elevar range can also be attached for extra versatility. MaxiShift-X suits any desk top thanks to its straight up and down design with virtually no pinch points.

QUICKSHIFT

The QuickShift is a height adjustable standing desk that can be placed on your existing worktop. Its small footprint gives you the benefit of sitting or standing at your desk without losing desk space. The gas assisted height adjustment system allows the user to effortlessly stop wherever is most comfortable.

Sit a laptop or a single screen with base on the QuickShift's work surface or upgrade and use a monitor arm to ensure correct screen height.
